<p>Performance Improvement</p> <p>Renewal projects that were operating prior to the beginning of the reporting period are subject to performance scoring as described below. HMIS and, if determined by the MO BoS CoC, Supportive Services Only – Coordinated Entry project types are exempted from performance scoring.</p> <p>Victim Services Providers</p> <p>Victim services providers that operate permanent supportive housing, rapid rehousing, transitional housing/rapid rehousing joint component project with CoC Program funds must use a comparable database to provide all data necessary to conduct the performance scoring process described below. Improving performance on the exits to permanent destinations, returns to homelessness, and increases to income performance measures is likely to improve safety for victim of domestic violence, dating violence, sexual assault, and stalking. The data must be de-identified and provided no later than the project application deadline.</p> <p>Reporting Period</p> <p>The reporting period is the complete federal fiscal year (October 1 to September 30) directly prior to scoring.</p> <p>Scoring</p> <p>For each scoring measure, individual project performance will be compared only against the average performance for the same project type, known as the project-type average. For example, permanent supportive housing projects will only be compared against the average</p>	

score for all other permanent supportive housing projects. Safe Haven projects will be included in the project-type average for rapid rehousing projects. Except for the *Cost Per Successful Outcome* measure, the project-type average will include all projects for which data is available and will not be limited to only CoC-funded projects.

Scoring measures for each project and for the project-type average will be rounded to the nearest whole number. For example, 89.5% on the Housing Stability measure would be rounded to 90%.

For each scoring measure, projects performing at or better than the project-type average will receive the maximum score. Projects will lose 10% of the maximum score for each percentage point they fall short of the project-type average. The score is represented by the equation below.

$$(1 - (|Project\ Type\ Average - Individual\ Project\ Measurement| \times 0.1)) \times Maximum\ Score = Individual\ Project\ Score$$

Depending on the scoring measure, increasing or decreasing the measurement is desirable. For example, *higher* rates of exits to permanent housing are desired while *lower* rates of returns to homelessness are desired. The desired measurement direction is represented by an arrow next to each scoring measure's name.

Example 1:

Project Example Measure: 88% ↑

Example Measure Project-Type Average: 93%

Example Measure Maximum Score: 5

Calculation: $(1 - (|93 - 88| \times 0.1)) \times 5 = 2.5$

Project Example Measure Score = 2.5

Example 2:

Project Example Measure: 17% ↓

Example Measure Project-Type Average: 14%

Example Measure Maximum Score: 2.5

Calculation: $(1 - (|14 - 17| \times 0.1)) \times 2.5 = 1.75$

Project Example Measure Score = 1.75

Cost Per Successful Outcome

The *Cost Per Successful Outcome* scoring measure will compare renewal projects only against other CoC-funded projects rather than projects from all funding sources. Match funding is excluded. Scores will be based on the average cost per successful outcome for all projects, regardless of project type. Projects with costs per successful outcome that are

- More than 25% lower than the average will receive the maximum score;
- 0% to 25% lower than the average will receive 75% of the maximum score;
- 1% to 25% higher than the average will receive 50% of the maximum score;
- 26% to 50% higher than the average will receive 25% of the maximum score;
- More than 50% higher than the average will receive no points.
