- Facilitate local competition for the CoC program and prepare the consolidated application;
- Conduct an annual gaps analysis; and
- Collaborate and cooperate with the Lead HMIS Agency on CoC activities.

**Planning Project Funds:**

Planning project funds will be utilized to empower local communities to fully engage and lead the CoC’s work. Focus will be placed on recruitment and inclusion of persons with lived experiences including Black, Indigenous, and People of Color.

The funds will also help to network and expand partnerships with housing providers and developers in our state. The project aims to involve healthcare providers, mainstream benefit partners, local public housing authorities, and community agencies to develop and implement a strong supported structure that prevents and ends homelessness.

Staffing for this project will bring together all partners in the CoC to provide training, implementation, and evaluation of written standards, services, and strategic planning goals. General membership meetings, board meetings, and committee meetings ensure that inclusion in planning and development of innovative strategies and services will ensure that the CoC has positive movement toward diversion, equity, and inclusion. Funds will also support the development of an annual gaps analysis, through lead agency and contracted resources.

The CoC will utilize funds from this project to carry out these activities:

- Staff the Lead Agency
- Coordinate Governance
- Membership Coordination: Funds support digital communication, meeting space and materials, and staffing to coordinate regional and full membership meetings.
- PIT: Funds will support marketing materials, supplies, and staffing to

coordinate annual PIT activities.

- CES Coordination: Digital platforms and staff coordination
- CoC/ESG performance: Staff coordination
- Data: Staff coordination, data & gaps analysis contractors
- Secure Contractors: Planning project funds will be utilized to secure contractors for CoC required activities: NOFO, gaps analysis, and/or lead agency staffing, and training.

**2. Describe the estimated schedule for the proposed activities, the management plan, and the method for assuring effective and timely completion of all work.**

Management of CoC funded activities is maintained by the lead agency. The lead agency is responsible for staffing, contracting consultants for NOFO and gaps analysis, providing technical assistance and training to project staff, conducting compliance monitoring, planning project grant management, facilitating planning activities, ensuring timely expenditure of funds, tracking matching funds, and drawing down funds from e-LOCCS. Activities are reported monthly to the CoC Board.

- **NOFO:** The lead agency works closely with the Grants Committee to develop, edit, recommend, and implement the annual NOFO competition, and prepare the Collaborative Application. The Grants Committee is tasked with managing the timeline and ensuring the lead agency is on track with the competition.
- **Membership meetings:** These are scheduled quarterly, providing CoC information, required training, committee and board updates. The Membership Committee works in partnership with the lead agency to plan, prepare, and execute the meetings.
- **Governance:** The governance charter is reviewed annually in Q3/Q4. Recommended edits are presented and voted at the annual CoC membership meeting in December. Regional Board elections occur in October; At-Large board elections occur at the annual meeting in December.
- **PIT Count:** The PIT Committee meets monthly. Regions elect Regional PIT Coordinators, recruit & train county leads & volunteers, develop marketing materials, & train county leads and volunteers. Lead Agency staff support efforts in uncovered counties, make connections with McKinney-Vento staff, coordinate marketing efforts, and coordinate paper survey tools outside of the online portal.
- **Gaps Analysis:** The lead agency contracts with an agency to complete a system-wide analysis of needs. This report is reviewed by the board and committees and utilized in setting CoC benchmarks.
- **Membership Recruitment:** The Membership Committee and the lead agency invite new members to join the CoC throughout the year. Invitations are made at regional & membership meetings, website and social media posts, and general correspondence from the CoC. Targeted efforts are made to recruit from sectors that may be missing from membership.
- **Coordinated Entry:** The lead agency works closely with the CES committee and access point agencies, focusing on a high performing CES. The lead agency also works with the HMIS lead to improve data entry and data quality.
- **Consultation:** The CoC provides feedback to state/local ESG administrators on performance of agencies applying for funding.
- **Data & Monitoring:** The lead agency provides feedback for the Consolidated Plan in the jurisdictions that are located in the CoC. The lead agency also works with HMIS Lead on PIT, HIC, and the CES prioritization list. The lead agency also works with the HMIS Lead on SPMs and LSAs. The Performance Committee is also involved in these important activities, as well as in coordination of Monitoring & Performance Improvement alongside the Lead Agency.
- **Networking:** The lead agency and CoC members work with PHAs and other housing providers in implementing more homeless preferences and "move on" strategies, work closely with mainstream service providers in healthcare and mental health care, expand involvement of local governments, increase mainstream resources, promote funding to address homelessness, and enhance action to address racial equity.

**3. How will the requested funds improve or maintain the CoC's ability to evaluate the outcome of CoC and ESG projects?**

Planning grant funds are crucial to the evaluation outcome. These funds both improve and maintain the CoC's ability to evaluate the outcome of CoC and ESG projects in various ways:

- Improve data management systems that allow for the collection of accurate and comprehensive data on homelessness, service utilization, and outcomes. Improved data management capabilities enable the CoC to analyze and track effectively;
- Pay for key staff positions, hiring and training new staff members and consultants to provide specific expertise for evaluating the outcomes of CoC and ESG projects;
- Travel funds for the lead agency to travel to BoS communities to continue providing on-site monitoring, technical assistance, training, and outreach to communities not active in the CoC. Both hiring personnel and travel activities increase the thoroughness of monitoring and evaluation of CoC and ESG projects, enhance the strength and efficacy of local homeless planning efforts, bolster data collection, address service needs and gaps, approve project outcomes, and improve the implementation and operation of the Coordinated Entry process;
- Allow CoC to develop frameworks for measuring outcomes and setting performance benchmarks. These established frameworks provide clear metrics and targets for evaluating the project's effectiveness. Developing this structured approach to measuring outcomes improves the ability to assess program performance and make adjustments using data;
- Support outreach and engagement activities to involve a wide range of stakeholders in the evaluation process. Engaging stakeholders helps ensure that evaluations consider diverse perspectives and needs. It also builds consensus around performance metrics and outcomes, enhancing the credibility and usefulness of the evaluation;
- Refine tools and metrics for evaluation program performance, leading to more effective management of CoC and ESG programs;
- Allow the lead agency to be actively involved in the CoC's Performance Committee, which is responsible for reviewing project performance and evaluation for both CoC and ESG projects, drafting evaluation policies and procedures, establishing performance standards, analyzing and interpreting systems and project-level performance data, tracking project spending data, and other performance-related activities.
